

Canuck Motorsports

Canuck Motorsports (CM) is a distributor of performance suspension lowering and lift kits. CM specializes in car, truck and SUV applications for domestic & import.

All our products are made and assembled with experience and precision, and are covered by our Limited Lifetime Warranty & No Sag Guarantee.

CM is committed to providing auto enthusiasts with

- highest quality, reliable suspension products;
- aggressive pricing of suspension springs and kits;
- outstanding and fast service.

Lowering Springs

CM springs are specific fit and give precise suspension adjustment, accounting for model, engine size, etc.

Ride Quality:

- CM springs enhance suspension performance while maintaining a reasonable level of comfort.
- Engineered using rates higher than stock, often involving variable rates.
- Created with ingenuity by the respected design team, CM's exceptional springs offer an outstanding driving experience that will never decline. Absolutely no sag, guaranteed.

Construction:

- Highest quality spring steel is coiled using state-of-the-art equipment.
- Stress-relieved in a continuous oven, shot peened and 100% set-removed.
- Powder coated a rich, glossy burgundy to ensure long life and good looks.
- High-tech equipment is used to consistently test the pre-production and production runs of every spring application built. Testing includes inspection for load height as well as rate.

For more info, check our website. Custom springs available upon request.
